Giving a second life to clothes

The Leopard is an "exotic and solidarity" charity shop where original and good quality secondhand clothes, shoes, bags and other objects are sold at very affordable price to customers from different social backgrounds. This boutique is part of the Relay network which creates employment in rehabilitation at regional level.

9h45-10h20: [Maison Mimir](#)

Self-managed social space

The Mimir house emerged from the encounter between homeless people and social workers, wishing to develop a space for residence and creation, and who occupied together a municipal building that had been abandoned for 11 years. Enjoying today a 20-year emphyteutic lease, Mimir is an alternative self-managed space offering cultural and social activities. Mimir also provides solidarity services such as a social luggage, small market and low-cost exchange space.

10h45 - 11h15: [Jardin partagé place Sainte-Madeleine](#)

Community garden and urban gardening

The Community Garden Sainte Madeleine is one of the four community gardens of the Krutenau neighbourhood. It was created in 2009 and is inspired and managed by the neighbours who meet at the garden at least twice a week in order to share ideas on current activities (sowing, harvesting, etc.) and to recover organic waste which is used as compost for the garden.

Bike self-repair workshops

At Bretz'selle, you're the bicycle mechanic! Bretz'selle was founded in April 2010 along the lines of a simple idea: to promote the use of bicycles by learning how to repair them in self-repair workshops.

Today, the association is developing around two main axes: the creation of innovative, "green" and fulfilling jobs; and the expansion of similar experiences in other parts of the city.

Social Restaurant and day center

The Youth Club L'étage has been working in many activities with youth at high risk for more than 30 years. A reception centre and a restaurant were opened in 1981 and in 1984, in the city centre of Strasbourg, to establish and maintain contact with vulnerable young adults, often homeless, who rarely frequent the usual places of social action.
